

CAMPUS CALGARY/OPEN MINDS IS REVOLUTIONIZING EDUCATION IN CALGARY

Campus Calgary/Open Minds (CC/OM) makes important connections between the classroom and the outside world, and brings the community together to meet the unique learning needs of today's students.

Brought to life by a dedicated community of teachers, parents, experts and local partners, CC/OM is an award-winning learning program that is fundamentally changing Calgary's approach to education. CC/OM offers students a year of inspired learning that centres around a week of hands-on programming in an intellectually rich community setting. Through the program, students have opportunities to observe how their learning applies beyond the classroom.

CC/OM enhances critical-thinking, literacy and problem-solving skills, and facilitates a deeper understanding of community responsibility, cultural awareness, civic pride and stewardship.

For over 20 years, the community has united around this program, building an integrated network of support and expertise that continues to foster expanded knowledge, skills and competencies among local teachers and new generations of Calgarians.

100,000+

students with expanded learning

35

awards and recognitions

20+ YRS

of leadership in the community

3,600+

teachers with enhanced skills

11 SITES

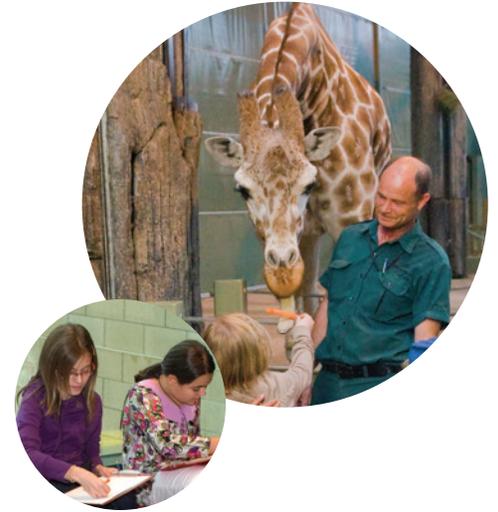

throughout the city

BE A CHAMPION. JOIN THE REVOLUTION.

Unparalleled results among participating students — including enhanced engagement, confidence, writing skills and critical thinking — have resulted in demand for CC/OM programing that far exceeds our capacity. There are several community organizations interested in becoming host sites and are waiting to be matched with potential funders.

Your involvement and financial support can help us expand the program to these sites, include more areas of study, and ultimately ensure that more teachers and students have access to this innovative learning opportunity.

30%

over-subscribed for the 2015/2016 school year

300+ applications received

100

teachers & their students were unable to participate due to over-subscription

YOU CAN HELP REDUCE THIS NUMBER.

Help more teachers and students participate in CC/OM. Visit www.ccom.cbe.ab.ca to find out how.

POWERFUL RESULTS

Connections between schools, facilities and experts in the community

Personalized, experiential learning opportunities for students

Increased student engagement, confidence, writing skills and critical thinking

Increased capacity and skills for teachers
