Update on measles exposure at Western Canada High School

For Immediate Release

CALGARY — The Calgary Board of Education will provide media with more information about the recent measles exposure at Western Canada High School later today.

In accordance with the *Public Health Act*, Alberta Health Services will be asking some students to remain at home from April 5 to 21 to prevent further spread of the disease. We will share our plans about how to support students so they can continue to progress through their courses during this time.
