

Q1: What is important to consider as we look at the low enrolment numbers in the Juno Beach Academy Program?

Started: 20 Dec 2013 Ended: 3 Mar 2014

Background information

Juno Beach Academy for Canadian Studies has been offered at the CBE since 2003. Over that time, enrolment in the program has fluctuated between 112 - 195 students. Current enrolment in the program offered for Grades 7-12 is 117 students. Providing quality educational programming for low numbers of students is difficult. The CBE would like your thoughts and feedback as we look to the future of the Juno Beach program. For additional information prior to completing this Thoughtstream, please open the document attached below.

Priorities Summary

**Q1:** What is important to consider as we look at the low enrolment numbers in the Juno Beach Academy Program?

**Overall rating** - total number of stars assigned to that group of thoughts

**Participant count** - the number of people that assigned stars to that group of thoughts

**Average rating** - the average number of stars that was given to that group of thoughts. The overall rating divided by the participant count. Average Rating can indicate a small number of people are passionate about a particular subject. You will often see a group of thoughts with a higher average rating than a group higher in the list. This can indicate that the people that did add stars to that group felt it was very important.

**Q4:** What do you think is missing because the number of students in the program is low?

**Average rating** - the average number of stars that was given to that group of thoughts. The overall rating divided by the participant count. Average Rating can indicate a small number of people are passionate about a particular subject. You will often see a group of thoughts with a higher average rating than a group higher in the list. This can indicate that the people that did add stars to that group felt it was very important.
