

# update

## W.H. Cushing Workplace School

February 10, 2015

The W.H. Cushing Workplace School lease will expire on July 31, 2016. The following information is an update on steps to secure a new location for the school.

A news release was issued on December 11, 2014, indicating the CBE is seeking expressions of interest in a unique partnership with downtown corporations. For more information on the news release please click here <http://www.cbe.ab.ca/news-centre/news-media-releases/Pages/default.aspx>

[Corporate Partnerships](#) also sent information to 45 corporations that meet the established criteria. Expressions of interest from corporate Calgary will be accepted over the next three to four months. All submissions will be reviewed to determine suitability based on the specifications required including a downtown core location; first, second or third floor office space; and a company size that could sustain this partnership.

As of February 6, 2015, Corporate Partnerships has received four responses indicating interest in the concept. Responses indicated that, due to the current economic situation, the companies could not consider this type of proposal. One company without space suggested that, in other economic circumstances, providing funds to support the project might be considered.

We continue to be open to proposals and are seeking ways to move forward in finding a new location for W.H. Cushing Workplace School.

The CBE will continue to keep parents updated through your Principal at School Council meetings.

Yours truly,

Calvin Davies  
Director  
Area IV

Darlene Unruh  
Director  
Planning, Transportation and Environmental Services
