French Immersion and Spanish Bilingual Programs at Westgate School

issue |

The accommodation of students in the programs at Westgate School is a long-standing issue driven by growth of these programs and the limits of available student spaces within our system. An addition of modular classrooms has been approved by The Province.

opportunity |

The Calgary Board of Education Planning and Transportation Department and the Area IV Office invites parents to attend a working session to talk about grade configuration possibilities and potential solutions for the accommodation issues at Westgate School. This session will start with a presentation followed by table discussions. Feedback collected will be used to determine our direction for the next few years.

location |

This meeting is being held at the Education Centre as the space available can comfortably accommodate both the presentation and table discussions without requiring a facility operator and school staff to set up and take down. By presenting this information on a Saturday during two sessions a greater number of parents are able to participate on the same day at two different times.

Families are welcome to have their children attend, however no childcare will be provided.

parking |

Complimentary parking will be provided in the parkade which is accessed from 12th Avenue SW. Please take the elevator to the main floor and check with the Security Desk for directions to the Multi-purpose room.

rsvp |

Space for this event is limited to 175 people per session. We will do our best to accommodate everyone. If required an additional meeting may be scheduled.
