Enables Hamptons and Sherwood students to attend school closer to home reducing travel time for those students.

Projected = Highest projected enrolment range for 2019-23. Projections assume that only students who are eligible to remain at their current school will remain, and all other students will move to their newly designated school.

A grandfathering period for some grades in some communities has been built into the decision to ensure students move schools only once in the next two years, just as they would if there were no change. Grandfathering also enables Tuscany School and F.E. Osborne School to build their new Early French Immersion Programs over time. Grandfathering does not apply to younger siblings. For more details about the decision, see the reverse.

How to use the charts | Not all communities are listed below; only those that are affected by grandfathering. If you see your community in a chart below, your student(s) may be eligible for grandfathering, depending on their grade level. Find your community chart, then locate the row of the current (2018-19) grade level of your student(s). Follow along the row to see the school(s) your student(s) will attend. Schools are indicated by colour coding (see legend in bottom right).
