

C-Train and Platform Safety

Remove your headphones when crossing the street, on C-Train platforms and at C-Train crossings.

Stand close to the help buttons on the C-Train platforms.

Stand away from the edge of the C-Train platform and behind the yellow line.

Do not cross C-Train tracks when lights are flashing and carefully look both ways before crossing tracks.

Look for important messages on the passenger information signs that are above the C-Train platform.
